## Certificate II in Civil Construction

### Course Overview

The Certificate II in Civil Construction caters to individuals seeking employment or already employed in a civil construction role, who wish to gain a formal qualification that is recognised nationally. This qualification reflects the role of a skilled operator working in civil construction, who applies a broad range of skills in a varied work context, using some discretion, judgement, and relevant theoretical knowledge.

### Course Requirements

To be awarded the Certificate II in Civil Construction, the following packaging rules apply:

<b>Total units</b>	16
<b>Core units</b>	10
<b>Elective units</b>	6
<b>Packaging rules</b>	Of the electives: <ul style="list-style-type: none"><li>• at least five (5) must be chosen from elective units listed below</li><li>• no more than one (1) may be chosen from elsewhere within this training package, or from another endorsed training package, or from an accredited course.</li></ul>

## Additional Information

### **COURSE DELIVERY AND ASSESSMENT**

The Certificate II in Civil Construction is competency based; therefore, the duration is flexible. The chief strategies for training and assessment can include classroom-based workshops and/or on-the-job training that is relevant to various workplaces.

### **CREDIT TRANSFER (CT) AND OR RECOGNITION OF PRIOR LEARNING (RPL)**

National Skills Institute will offer CT and or RPL to individuals who may already be proficient in any of the Certificate II in Civil Construction competencies. CT and or RPL is available for each Unit of Competency based on formal training, experience, or other expertise. Evidence of competency can be provided in various forms including certificates and examples of work and will be assessed by National Skills Institute.

### **ACCESS AND EQUITY**

National Skills Institute encourages all people, regardless of gender, socioeconomic background, disability, ethnic origin, age or race to apply for courses.

### **INCLUSIONS**

All courses delivered by National Skills Institute include detailed learning materials, assessments, and a certificate for students upon successful completion of the course.

## How to enrol

The Certificate II in Civil Construction is available to all individuals – there are no prerequisites for the course. For an enrolment form, fees and other student information, please contact:
